NS/NW1502 - NS/NW2002 - NS/NW2502 - NS/NW3202 - NS/NW4502

Nautronic Multitimer is an advanced clock with various functions, which can be used in connection with timing and sports with timed periods. Nautronic Multitimer can also be used as a tool for counting eg. telephone calls, produced units etc. NS is for indoor use and NW is for outdoor use.

FUNCTIONS:

- 1. CLOCK**
Ordinary time-of-day clock. As an option it is possible to order NT240 which makes the clock radio controlled (DCF77)
OPTION - Shifting between time-of-day clock and temperature using an external temperature sensor.
- 2. COUNTER**
Increase/decrease by 1 for each time a button is pressed.
Decrease: It is only possible to count down from 9999xx.
- 3. TIMER**
Possibility of being used as a stopwatch, with last minute countdown in 1/100 of a second. User can choose between up and down counting of the stopwatch.
Furthermore the user can store 3 different start/stop times in the memory.
- 4. CLOCK / SCOREBOARD**
Connected to scoreboard for showing game clock.
Showing time-of-day when scoreboard is not in use.

OPTIONS

Yellow Digits
Possibility of having the **Multitimer** delivered with yellow digits in both xx01 and XX02 versions

Boxing eg.
Possibility of having the **Multitimer** delivered in a special version with last two digits in yellow for displaying current round in boxing eg.

Temperature
Possibility of connecting an external temperature sensor. The **Multitimer** will then change between displaying time and temperature.
